OBJECTIVE

A full-time position in software development where I can design, build, and implement solutions that drive real business improvement

I have worked continuously for the last eight years to support myself and fund my college education. Most of that time has been developing skills in my chosen field - computer information systems. I am seeking employment to fund completion of my undergraduate degree, and long-term career opportunity.

EDUCATION

Kansas State University

Senior - Graduating Fall 2015

Bachelor of Science, Information Systems

Johnson County Community College

Spring 2007 – Spring 2009

Undergraduate Coursework

Final GPA – 3.82

TECHNICAL SKILLS

Problem Solver – experienced in solving complex technical issues based on four years of technology support experience at the Kansas State University Information Technology Assistance Center (ITAC).

Examples of My PHP and Javascript Development Used by K-State – may be found at http://sandbox-dane.rhcloud.com , including the *Scantron-Grading* application, and the *ITAC Status Board* used by the K-State IT Helpdesk as a means to conveniently display information from multiple sources on one screen.

Bi-Lingual – primary Spanish language support for ITAC

Motivated Teacher – Planned and taught weekly 3-D modeling and animation courses to middle-schoolers using 3DS Max

Co-wrote Canvas LMS training material for K-State faculty

Technical Experience – Proficient in multiple programming and web development architectures for: HTML, CSS, Javascript, PHP, Ruby on Rails, MySQL, C#, C, C++

Other development tools include: Dreamweaver 8, Adobe Photoshop Elements, Adobe Premiere, QuickTime Pro 7, Audacity, Service-Now,
